Startling Discovery.
The discovery by the inhabitants of a locality hitherto unvisited by the pestilential scourge of fever and ague, that it exists in their very midst, is decidedly startling. Such discoveries are made at every season, in every part of the Union. Consequently, when it is ascertained, as it invariably is at such times, through the valuable experience of some one who has been benefited and cured, that Hostetter's Stomach Bitters is the specific panacea for the malady, the entire population against it, a feeling of more security and tranquility reigns throughout the whole neighborhood. Besides, the febrile forms of malarial disease, dumb ague and ague cake are removed by the potent action of the Bitters, to which science also gives its sanction as a remedy for rheumatism, dyspepsia, constipation, heart complaint, diphtheria, many troubles, and all diseases impairing the organs of digestion and assimilation.

In Consumption Incurable?
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, and now on my third bottle, and am able to oversee the work on my farm. It is the finest medicine ever made."

Jesse Middlewart, Ohio, says: "Had not been for Dr. King's New Discovery for Consumption I would have died from lung troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottle free at Hodgkinson & Co.'s drug store.

Unnecessary Miserie. Probably as much misery comes from habitual constipation as from any disorder, and the functions of the body, and it is difficult to realize the reason no one likes to take the medicine mainly prescribed. The Former Days and the Latter.

Forty years ago the fatted steer must be, in all cases, four years old, and usually two or three years older to go into market. It was regarded as the height of extravagance, or, to say the least, poor economy to propose putting it into market earlier. Our fathers considered the complete growth of the animal the only period of proper maturity. For centuries the cost of production of the aged animal was scarcely thought of and seldom computed. To be sure on the frontier, with free pasture, such a bullock often cost his owner less at sixteen to eighteen hundred pounds gross weight than the tidy two-year-old of modern like proportions. But on pasture, and corn ground now worth \$50 to \$100 per acre, the old steer must give way to the early matured youth in the line of progress of the times and in the demands of economy.

The tender quality of the beef thus early matured recommends it at once as superior to the other. Because of this excellence it brings a greater price, and the consumer uses more of it, which results in double profit. Let not the calf ever go hungry if you would grow it to the best profit.—(National Stockman.)

MISCELLANEOUS.
Of hides and tallow the United States produces \$82,949,207 worth. Russia follows close after with \$81,000,000.

There are said to be upward of 300 Holstein-Friesian breeders in the United States and the number is rapidly increasing.

The exports of live stock and dressed beef from Boston for the English markets last week were 1,038 cattle and 2,379 quarters of beef.

The value of live stock in the United States is \$1,279,560,190, which is more than the combined value of the stock of all other countries.

The opinion is almost universal in the west that cattle properties of all classes will show a decided advance in value during the year 1888.

Arizonians rejoice over the fact that the mountains of that Territory are covered with snow, which insures plenty of water for next season.

Charles Fullington, of Ohio, is said to have imported the first Percheron stallion—Louis Napoleon—west of the Alleghany mountains, in 1851.

It required 212,287 cars to carry the live stock received at Chicago during 1887, while it took only 67,954 cars to accommodate the number shipped out.

Chicago received nearly 750,000 head of range cattle last year. The increase on the arrivals for 1886 was 185,000 head. For 1880 the receipts were less than 300,000 head.

Ayrshire stockmen will be glad to learn that their type of cattle is reported to be among the most popular breeds being introduced by the enterprising cattlemen of Australia.

L. C. Steele, of Pescadero, Cal., dehorned 53 two-year-olds and one older, cow, Dec. 27th, and reports them all in tiptop condition, despite the surgery and the cold snap.

AT HACKING COUGH can be quickly cured by Shiloh's Cure. We guarantee it. For sale by Osburn & Shoemaker.

MONDAY, JANUARY 30, 1888

THE Press and the Bench are two great conservators of the welfare, prosperity and happiness of the whole people. They are co-laborers in the suppression of crime and the just and equitable administration of the law of the land. The GAZETTE has always had these aims in view, and will continue in the same path with unflinching zeal. There are times, however, when the press outstrips its more slow, though probably more sure, fellow-laborer in this field. In doing this it sometimes does that which is not looked upon favorably by its more dignified and learned ally, and thus their usually pleasant relations become strained. This was the case in Reno last Friday, when this paper published a report of the notorious Heusler trial. The case is one which has excited a feeling in the community far beyond anything of the kind for years. It has been the current topic of conversation in all circles and by all classes. It could not be ignored by any newspaper that made any pretense to furnish the news of the day. The GAZETTE is not a dead newspaper, nor is it fossilized to that degree that it can permit a live item to pass unnoticed. Its many readers demand the news, and the news is given them in the best, quickest, most reliable and readable manner it can be presented. This is the object for which it is published. If, in doing this, it at times errs in its judgment or accuracy, it is because that judgment was at fault and its accuracy hampered by unreliable channels of information. There was no intent on the part of the GAZETTE to interfere with the courts or retard the wheels of justice. And a cooler and less ambitious officer of the court would have weighed the matter more seriously, and have determined beyond the shadow of a doubt that contempt for the Court was premeditated and intended, before causing the attachment to issue. However, as no harm has been done, and no one seriously incommoded, it may be well to say that even a diligent officer is better than one less alive to his duties. The District Attorney, no doubt, did what he conceived to be his duty, and that for the reason why he acted so hastily in the matter, no ill-feeling is harbored against him on the part of the GAZETTE.

CONSIDERABLE newspaper comment was made at the time Lamar was sworn in on the fact that he wore a brand new silk robe, and it was said by some, in words of bitterness, that he was too confident of his confirmation. The fact is that the Judges of the Supreme Court are somewhat particular as to their robes, and some of them change them more frequently than others do. The wealthiest Judges undoubtedly have the greatest number of silk robes, and it happened that Judge Field some time ago ordered a new robe, which was delivered at the Supreme Court-room on the morning that Lamar was to be sworn in, and a little before the Court convened. Judge Field insisted that Mr. Lamar should wear this robe when the oath of office was administered and until he could procure one for himself, and he did so.

The annexation of the Panhandle of Idaho to Washington Territory is again a bone of contention. The House Committee on Territories is hearing arguments by delegate Voorhies of Washington Territory, in favor of annexation, and Governor Stevenson of Idaho, who opposes the measure.

Rio Bonito Lands sold.

The Biggs (Cal.) Argus of the 19th inst. says: Twenty-two thousand dollars worth of Rio Bonito lands in small tracts have been sold this week, and what is of peculiar importance in connection with the sales, to the town of Biggs, is that the tracts are sold for bona fide settlement by the parties purchasing and not for speculation. These sales do not include the lands being negotiated for by the Fruit Growers' Union at Biggs.

Repudiate It.

Dr. Bergstein states that the authorship of the toast given at a supper recently by a professional man, as detailed in Friday's GAZETTE, has been attributed to him. He indignantly repudiates it, and says he never made any such toast or statement at a supper or anywhere else, and if he is the party alluded to, some person has reported it for the purpose of injuring him socially and professionally. In justice to the general Doctor, his statement is given publicity.

It is stated that the management of the reduction works is contemplating putting in improved machinery so as to be ready to meet all emergencies. It is thought that the works will again start up about March 1.

A clear skin adds to the beauty of a fine face, and often lends a charm to homeliness. To beautify your complexion you must have a good diet, a certain amount of exercise, and a quiet and agreeable life.

CHARGED WITH BURGLARY.

John Huranen Arrested for Burglary the Theater Saloon. On the evening of December 28th, the Theater saloon was burglariously entered and a pistol, meerschaum pipe and box of cigars stolen. Several days after a Russian named John Huranen approached the proprietor of the saloon, George Simoneau, and stated that he knew where the pistol was, and hinted that for a money consideration it would be returned. Mr. Simoneau thinking that he would be able to catch the thief, offered a reward of \$10. Accordingly the stolen articles were returned. Having recovered his property the amateur Hawkshaw then demanded the name of the thief and threatened to have Huranen arrested unless he disclosed it. This Huranen refused to do. Simoneau then swore out a warrant charging him with the burglary, and last night he was lodged behind the bars. To-morrow morning at 10 o'clock he will be given an opportunity to tell what he knows about the case at his preliminary examination before Justice Young.

The Lucky Man. As was announced in last week's Era the sum of \$5,000 was won in Benicia at the last drawing of the Louisiana State Lottery. As the holder of the lucky ticket kept the good news to himself hundreds of people have been giving their leisure time in trying to ferret out the fortunate person. On Thursday noon Mr. L. C. Atwood, our City Treasurer and Manager of the Western Union Telegraph office of this place quietly informed the astonished public that he was the holder of the coupon of ticket 8,180 which won the prize of \$100,000 in the December drawing of the Louisiana State Lottery, one-twentieth part of the ticket or \$5,000 having been received from Wells, Fargo & Co.'s Express in hard twenty dollar gold pieces. The Thursday evening a few moments after its arrival Mr. Atwood accompanied by Express Agent Durner repaired to his home and presented the money to his wife as a Christmas gift. This was her first news of the happy Christmas in store for her; both herself and husband have taken the matter very coolly. Of the many hundreds of dollars paid out in Benicia for lottery tickets recently, the good fortune has visited the home of the deserving family who thoroughly appreciate the gift and will surely make the best of use of it. The unanimous verdict is "I am glad of it as a more deserving family could not have been favored." The New Year begins its career in this home under brighter and happier auspices than they could have dreamed for. The lucky ticket was the fifth one ever purchased by Mr. Atwood.—Benicia (Cal.) A Lovelock Boomer.

Pete Marker, of Lovelock, has been visiting Reno the past few days, and is loud in his praise of Lovelock and enthusiastic over its future. "It," said he, "is bound to be the great feeding center of the State; nothing can prevent it. We raise the best alfalfa, and more of it to the acre than any other place in the State, and we can easily get the cattle to feed it to. I have now 1,400 acres in alfalfa, and will put 800 more in this spring. As we can raise six tons of alfalfa to the acre, which we have been selling at \$6 50 a ton the present season, you can see that our crops are quite a source of revenue to us. What I say of myself can be said of all there. In less than two years it will support Reno as a feeding center."

THE REV. GEO. H. THAYER, of Bourbon, Ind., says: "Both myself and wife are in poor health, but the medicine always affords great relief in pulmonary diseases. Ask your druggist for it."

"A WONDERFUL DREAM."

Paper Read by G. E. Peckham at Anderson School-house.

Every month it is the custom of the residents of Anderson, the name given to the new school-house and tributary territory located about two miles from town on the Virginia road, to assemble in the school-house for the purpose of having literary exercises and a good time generally. At the last meeting a large number were in attendance, and by a unanimous vote it was resolved that the GAZETTE be requested to publish the following paper by Mr. George E. Peckham, which he read to the great amusement of those present:

A WONDERFUL DREAM.

Now, this is no ordinary dream such as is caused from eating mucus or cucumbers, but is one of those dreams of prophecy such as they used to dream in the days of Pharaoh and Methuselah. In this dream the hands on the dial of time were moved around until they denoted the year 1907, or twenty years hence. Great changes had come over the land. Street cars were running from one end of the Anderson school district to the other. The Reno school district had been annexed to the Anderson district on account of its low taxes. The present residents of this vicinity had become very wealthy selling town lots, and were retired capitalists.

Tom Hymers and Pierce Evans were defeated for re-election after the ladies were allowed to vote, which was twelve years hence. A short time after their defeat they were both converted by a Mormon bishop and left for Salt Lake. The following month they officiated at a great meeting in honor of laying the corner stone to a million dollar monument in memory of Brigham Young. Tom Hymers was moderator of the day and extolled the virtues of Brigham to the clouds. While Pierce was the leader of the choir which chanted the closing Mormon hymn, and seemed to be in his element. Another startling revelation in this most wonderful dream was the great scarcity of bachelors and widowers. A law was soon enacted, after the ladies were allowed to vote and hold office, putting the bachelors and widowers at auction and a public sale was held every six months, when they were knocked down to the highest bidder. At the first sale they went off like hot cakes, but after a few auctions the maids and widows became more particular and the sale of bachelors called calls were very slow.

A great change was also made in the marriage law, as a result of the ladies voting. The work "obey" was omitted from the ladies' side of the agreement and the word "submit" was grafted into the bridegroom's side of it. After the marriage the man, by force of law, immediately became the wife's master and those already married had to be rechristened. This law worked a great hardship on the Mormons. For instance, when Tom Hymers first joined the Mormons he was simply Tom Hymers, but when he commenced to marry, his catalogue of names ran a follows: Mr. Isidore Gorse, Mr. Evangeline Bunnell, Mr. Carolina Sweetapple, and wound up with Mr. Mahala Miranda Ballon.

Pierce Evans got into trouble by trying to have this law declared unconstitutional in the courts. He was convicted of trying to obstruct the law and sentenced to the house of correction for six months and prohibited from marrying for a year. This left him with a very abominable name, and he learned by sad experience that the word "submit" in the marriage ceremony meant what it said, and for ever after was as meek as a lamb.

NOW that the case has been decided so far as the GAZETTE is concerned, and the jury having disagreed, it is but fair and just to Mr. Evans to state that he has not been actuated by any other motive than a desire to do his duty, a desire which has always characterized him while he has been District Attorney. In the conduct of the Henderson trial he is entitled to praise, as the nature of the case was such that no one conversant with it hoped for a conviction.

ENDED IN SMOKE.

THE CASE OF JOHN M DORMER DISMISSED.

The "Gazette" Held Not to be in Contempt for Publishing the News.

This morning promptly at 10 o'clock, John M. Dormer, managing editor of the GAZETTE, appeared before Judge Bigelow, of the District Court, to answer the charge of contempt for having published an item with, as the attachment alleged, the intention of influencing the jury in the case of Henderson, charged with rape. Quite a number of the people of Reno were in attendance, and when the District Attorney arose, and stated the nature of the complaint everyone present expected to hear a speech which would effectually squelch the meat-looking editor, who tremblingly shrank whenever the public prosecutor cast his eagle eye in his direction. Mr. Evans proved a disappointment, merely stating the nature of the case, and submitting it on its merits. Having performed his duty as a vigilant and dutiful-loving District Attorney should, he quietly took his chair and remained passive spectator of the proceedings which followed.

The editor heaved a sigh of relief as his accuser closed, and with a more confident air than which has distinguished him since the Sheriff placed him under arrest, took the witness stand. He said that the article complained of was published as a matter of news, that it was reasonable to suppose that the same would be given to the jury on the evening of the publication, and that it was not, and never had been, the intention of the GAZETTE to influence the jury. The Court allowed Mr. Dormer to fully explain his views, and as he had nothing to repent of and was not guilty of contempt according to his view of the case, he took advantage to speak of the functions and powers of the public press.

Judges Boardman and King also reviewed the case, both gentlemen asking that the proceedings be dismissed, as they had no doubt but that the GAZETTE was actuated by pure motives and by a desire to present the news to its large number of readers.

Judge Bigelow, in summing up, stated that the GAZETTE, by publishing the proceedings of the preliminary examination before Justice Young, had put the county to great expense in securing a jury. The Court further stated that in issuing the warrant of attachment it had been actuated by the best of feeling, but, while admiring the GAZETTE as a newspaper, thought that owing to the gravity of the case, something should be done, if only to make an example so that in the future the newspaper will have a precedent by which to be guided. In conclusion the Judge purged Mr. Dormer of contempt and ordered the case dismissed.

Now that the case has been decided so far as the GAZETTE is concerned, and the jury having disagreed, it is but fair and just to Mr. Evans to state that he has not been actuated by any other motive than a desire to do his duty, a desire which has always characterized him while he has been District Attorney. In the conduct of the Henderson trial he is entitled to praise, as the nature of the case was such that no one conversant with it hoped for a conviction.

THE HENDERSON CASE.

The Jury Disagree and are Discharged.

Yesterday afternoon, after being out twenty-four hours, the jury in the Henderson rape case, came into Court and announced that they were unable to agree, and accordingly Judge Bigelow discharged them. It is understood that the jury stood ten for acquittal and one for conviction, the latter vote it was stated being cast by Ben Peck.

The Reduction Works Suit.

The Carson Index Union says: There seems to be much feeling against the Governor and State officials for interfering with the water right of the Reno Reduction Works on behalf of the Insane Asylum. The case was decided against the State, and it is understood that an appeal will be taken to the Supreme Court by the Board of Assumption Commissioners.

Envious Carson.

In stating that the Reno Guard is the largest and best equipped militia company in the State, the GAZETTE has roused the ire of the Virginia Enterprise and Carson Index Union scal-hunters. The former states that the Emmett Guard is the best, and now the latter joins in and says the Carson Guard is the best equipped. All right, neighbors; we will surprise you when our boys in blue next parades.

A New Livery Stable.

G. W. Stockwell, recently of Nevada City, Cal., has opened a fine livery stable on Plaza street, between Virginia and Sierra, where he has at all times as fine livery stock as can be found in the State. Double or single rigs, saddle horses, etc., will be let at reasonable prices.

NEVADA'S OUTLOOK.

What Ex-Congressman Cassidy Has to Say About It.

The "Eureka Sentinel" believes that the bedrock of dull times in Nevada has been reached and passed, and from this time on our State will be on the up grade. A decided turn in our affairs took place last summer and fall. We have had a land boom in the State without knowing. A vast amount of land was purchased last season by actual settlers. It shows that there are people who believe in our soil and climate. It shows further that there are people who have made up their minds to stay with the State through good and evil report. This is a healthy sign for our future. One of the greatest drawbacks to this State has been the unsettled, migratory disposition of our population. There was a time in Nevada, not many years ago either, when no living man or woman in the State expected to make a home for a lifetime within her borders. All regarded themselves as here but temporarily, to better their condition, and then make homes in some more attractive locality. And so our State has drifted along for nearly thirty years. It has not been understood. There are desirable features of climate and soil here not equalled elsewhere in the face of the earth. People are just beginning to realize these facts. And over the State there are people who are fixing to live in Nevada for a lifetime, who until lately were ready to float out with the tide. This means business and a new departure for our State. It means attachment for the soil, and incidentally more pride in the success and general welfare of our community.

It is the ultimate result of corruption and a high standard of living among the people. But to secure and hold the home which our State deserves and invites, we must go to work and cut the very life out of our State and county governments. A Constitutional Convention is the quick way to do it. There is not a county in the State whose entire official business can be conducted by three commissioners. Two men will be ample in Eureka and in a half dozen other towns. The same may be said of the State work at Carson. We will take a contract to do it all for \$20,000 a year. It now costs \$96,000. The Legislature should not meet oftener than once in four years. That would be ample. We have too many laws and too little enforcement of them now. There must be radical and relentless reform in our local systems, if we are to grow and prosper in the future. No country will command permanent settlers where the rate of taxation is three or four per cent per annum. That is as much as money will earn in the East. It is enough to scare away the desirable immigrant and keep him away. If there is any sense in the State, it ought to be able to see that these things which we have so often heard of are really important and deserving of immediate consideration. The Lord helps those who help themselves. Let the devil take the hindmost.

Words of Truth.

The Central Nevadan hits the nail hard in the following: Never patronize a merchant who sends three thousand miles to have his printing done. If you do every dollar you spend with him is gone from the money circulation of this country. Such men are bears on any community, and are not willing to patronize the local public from which they expect to live. Money spent in Chicago for printing does not help a single citizen of this State.

REAL ESTATE.

DEALERS IN—
Country and City Properties in
Nevada and California.
For Sale.

\$30,000. Mrs. Howard offers her
ranch for sale. The ranch is on the Virginia road, the most
desirable in all the country roads in Nevada. It is an excellent
ranch and in a fertile agricultural section. The
ranch consists of about 90 acres and a
valuable water right. The ranch is
one of the best in the region of Reno, one of
the most productive of the size of all the
ranches in the Truckee Meadows. This
year it has produced over 1000 bushels
of grain and over 1000 bushels of
potatoes, and other products in value about \$9,000. By
the expenditure of a few hundred dollars
the ranch could be made to produce
much more productive than it is at present.
The soil is admirably adapted to
the raising of alfalfa, stock and vegetables.
There are also several houses and other buildings, a good orchard and
the remainder in fine annual installations. Interest at 8 per cent, per annum.

\$13,650. A Banff ranch located
about five miles south
from Reno is offered for sale. It
consists of 455 acres, which will be sold at \$6
per acre, or for \$13,650 and on easy terms
of payment. The ranch contains a
house of eight rooms, two barns and other
outbuildings. The place has plenty of fine
irrigating water and a fine
spring of excellent drinking water. The
ranch yielded this year 350 tons of hay,
and pasture valued at not less than \$1200.
The total value of the ranch's year's yield is
at least \$5,000, and since the year's
yield has amounted to as much as \$5,000.
As the ranch consists chiefly of pasturage
and irrigation land, the value of the land
in the place is exceedingly small. The ranch
is especially desirable as a stock range
and for this purpose would yield a handsome
profit on the amount invested.
